for real-time availability

# Built for **performance**

Unleash the beast with the new Golf R, armed with the R Performance package. From the Rear Spoiler that stabilises high-speed antics, to the Titanium Exhaust engineered by Akrapovič, and bold new 19" Estoril alloy wheels, this isn't your typical ride. With the Drift and Special mode, drivers are able to configure the car's characteristics to match any driving style. This machine doesn't just drive, it dominates, with dynamic handling and unrivalled thrills thanks to R division tech. The new Golf R has brains with its brawn too, boasting the latest IQ.DRIVE safety technology. It's more than a vehicle, it's an experience, one that puts the 'R' in R-rated.

# Transform every turn with R Performance Drift and Special mode

Working hand-in-hand with Torque Vectoring, the Drift mode gives you total control during the more 'playful moments' to ensure a safer and fluid drive. By simply engaging the R button on the sporty, flat-bottomed steering wheel, the Electronic Stability Control (ESC) is turned off and shifts the torque evenly to the rear, transforming the hatchback by injecting even more excitement to the driving experience.

While "Drift" mode is perfect for sliding action, the "Special" mode is best experienced on back and country roads, where suspension is adjusted for optimum contact on the tarmac. Specifically designed for the Nürburgring-Nordschleife, this mode gives the car a set-up that meets the distinctive requirements of what is probably the most demanding racetrack in the world.

# Where stability **meets style**

With the R Performance Rear Spoiler, you're not just driving, you're making a statement. Crafted for aerodynamic improvements, the spoiler strikes a superb balance between style and function - a testament to Volkswagen's undying commitment to design with a purpose. Drawing inspiration from motorsports, it embellishes your Golf R with that extra dash of charisma.

## Comes with all the **pops and crackles**

The new Akrapovič exhaust system is a lightweight titanium-crafted symphony that serenades the streets while shedding 7kg off your ride. Enjoy the freedom of precise control, boosted efficiency and an unmistakable robust sound.

# The spirit of

Nothing represents the spirit of motorsport racing the same way the Golf R does. Starting with the new R front bumper, R radiator grille and 19" Estoril alloy wheels, the new Golf R truly bears the hallmark of a champion racer.

# Get in the **fastest Golf ever**

Behold, the most powerful Golf ever produced. With a 2.0TSI engine packing 320PS and 400Nm of torque alongside a 7-speed DSG transmission, the new Golf R can reach a top speed of 250km/h and accelerate from 0-100km/h in only 4.8 seconds. All these and more, make driving the new Golf R an experience like no other.

The new Golf R's 4MOTION All-Wheel Drive system utilises rear-axle torque vectoring, delivering a whole new level of performance. While cornering, more power can be directed to the wheel on the outside of the curve in a matter of milliseconds, therefore significantly increasing the agility of the new Golf R, and your driving pleasure.

# When fun hits the road

Widely recognised to provide thrills, chills and unparalleled excitement in every drive, the new Golf R has always made an impression since its inception. Complete with enhanced performance, better traction, and an aggressive new look, the new Golf R is set to raise the bar once more.

The new Golf R is designed to be competitive on the racetrack, yet comfortable and suitable for a daily drive. This is because it is fitted with specifications that provide the best utility, from the full LED headlights including cornering function and all weather lighting, daytime running lights, LED illumination strip between headlights, to the LED dynamic rear lights.

# All systems ready for take off

The new Golf R puts innovation at your fingertips. The interactive Digital Cockpit, 10" Discover Pro infotainment system and haptic-touch controls on the leather-wrapped steering wheel open up a new world of driving experience. That's not all, the new Golf R is able to remember your personal preferences for a wide range of functions, including air conditioning, lighting, radio, and navigation.

Take the wheel, conquer the road. Equipped with Driving Mode Selection, and a Vehicle Dynamics Manager with Dynamic Chassis Control, the new Golf R lets you to change driving modes from Comfort, Sport, Race, Drift and Special, while providing you a new level of control with even more manoeuvrability.

Enhance your audio experience with the premium 480W Harman Kardon sound system with 10 high-performance speakers including subwoofer. It's not just listening to music — you become immersed in it.

# Comfortably **stylish**

Step right in, and have a seat. With digital displays and ambient lighting that welcome you when opening the doors, it's the perfect place for a driver looking for excitement.

The luxurious interior of the new Golf R is fully fitted to a level of sporty comfort that you can both see and feel, from the R decorative trim in Carbon Grey, premium Nappa sport leather seats complete with iconic R styling, all the way to the R performance steering wheel with blue backlit R button and shift paddles.

Besides that, you can experience a seamless connection with the new Golf R via Wireless App-Connect® with support for Apple CarPlay and Android Auto. The new Golf R is equipped with Wireless Smartphone Charging as well as the newly fitted Head-Up Display.

# Shaped for performance **with IQ.DRIVE**

It's equipped with the latest IQ.DRIVE technology and numerous safety features such as Travel Assist with ACC, Side Assist, and more. Other features include seven airbags, Automatic Post-Collision Braking System, Electronic Stability Control (ESC), Driver Alert system, and Volkswagen's Intelligent Crash Response System that triggers during certain collisions. In essence, the new Golf R combines intense performance with advanced safety.

## Ease your mind with Travel Assist

With Travel Assist, you have an extremely useful driving assistance system on board. It can keep your vehicle in its lane, keep its distance from the vehicle in front and maintain your pre-defined speed. Among other things, it uses the adaptive lane guidance system for this. This system actively keeps the vehicle in the middle of its lane.

# Lane Assist

**Helping you stay between the lines for the long haul**

No matter what kind of road you're driving on, if you're 56 kmh or faster, IQ.DRIVE can help keep you from going over the lines. If your vehicle begins to drift without your turn signal on, IQ.DRIVE can warn you and counter steer when activated to help ensure you stay in your lane.

# Side Assist

**Helping steer you clear of the things you might not see**

When you're focused on the journey ahead, your vehicle's IQ.DRIVE technologies can help by alerting you when another vehicle may be hiding in your blind spots and helping counter-steer when necessary.

# Front **Assist**

## Alerting you before a collision

Even when we're driving at our best, we still need to keep an eye out to avoid accidents with other cars or pedestrians in front of us. Thankfully, the IQ.DRIVE technology monitors the road ahead with the ability to help brake on its own. It'll first provide audio and visual alerts when you're driving at higher speeds and at risk of a potential collision. Then, if necessary, it'll automatically apply brakes to help mitigate or avoid a collision.

# Adaptive Cruise

## **Control (ACC)**

**Going with the flow made more stress-free**

When the road gets busy, IQ.DRIVE can help keep things cruising. When dealing with traffic on the highway, it uses sensors to detect vehicles ahead of you, helping adjust your speed, and manages the distance between you and what's in front of you, adapting to the situation you're in.

# The Golf R 2.0TSI

Exterior
R styling pack - R design front bumper, R design rear bumper featuring quad exhaust tailpipes
R radiator grille, R side skirts
Full LED headlights including cornering and all weather light

# Volkswagen Cares App

We are committed to care and provide the best for Volkswagen customers. More than just a loyalty program, Volkswagen Cares applies on all levels and embodies how we interact, engage and serve our customers better. Customers may also download the Volkswagen Cares mobile application, an aftersales-led initiative to continuously improve the ownership experience. The mobile app comes with a list of features related to both sales and aftersales, including service offers, owner rewards, educational videos and tips event updates, and 24-hours' roadside assistance - all at the touch of a button.

# Volkswagen Loyalty Advantage (VLA)

Being part of the Volkswagen family comes with rewards. From your 4th scheduled service onwards, enjoy up to 40% savings on genuine parts to keep your Volkswagen in top condition. Plus, drive with peace of mind knowing that all genuine parts are covered by a 2-year unlimited mileage warranty. Speak to our service advisors at your preferred Volkswagen service centre to learn more.

# Body & Paint

Safe and strong: Volkswagen Genuine Body Parts give your Volkswagen the necessary stability and offer you the best possible protection in the event of an impact. As we have developed all parts especially for your original, they fit like a glove. The result: you save time and costs in any repair and your Volkswagen remains an original through and through. Best of all, our paint and workmanship comes with 2-years warranty for your peace of mind.

# 24-hour Roadside Assistance

When your Volkswagen has a breakdown, our 24-hour roadside assistance service team is readily available to help you with the following services:

1. Tow assistance and recovery to the nearest Volkswagen service centre.  
For security reasons, towing service will not be provided to an unattended vehicle.
2. Emergency telephone call to family or friend of the Volkswagen driver.
3. Battery jump start. If your vehicle cannot be driven safely, towing services will be provided.
4. Flat-tyre change (if spare tyre is available) in a safe environment.  
Otherwise, towing service will be provided.
